

Capacity Building training camp- Part 1

Mechatronics

Festo-Didactic makes you and your students fit for Automation industry

A Global
Partner of
worldskills
international

The MPS® makes history

Since 1991, the stations from the modular production system MPS® have been the "sporting equipment" at Worldskills. In national and international competitions, MPS® has demonstrated that its concept, the stations and control systems and its functionality involved provide exactly those features that characterize automated production throughout the world: integrating mechanical systems, electrical engineering and IT to form mechatronics

Festo will host a training camp to capacitate TVET College lecturers and Training center instructors.

Objective:

The lecturers should be able to align their training and teachings with the industry.

Venue: 22-26 Electron Ave, Isando 1600

Date: 2nd to 6th March 2020

Activities during the camp

Lecturers:

- Will analyse performance of the previous WorldSkills competitions.
- Will share Ideas on how to improve teaching and training methodology so that students are better prepared for the industry.
- Will discuss how to identify learners with potential for WorldSkills competitions.
- Will discuss effective ways to conduct Mechatronics test projects.
- Will be upskilled with technical skills (Programming, Networking, Mechanical and Wiring).
- Will be shown how to use Web-Based training and classroom management tools.
- Will receive certificate of participation.

Cost:

Group of 4 or above: R 12000/ Participant

Alternatively, R 15 000/Participant

Accommodation and traveling costs are not included

Duration: 5 days

RSVP by sending confirmation email to tressure.mokgohloa@festo.com
